122 Towcester Road, NN4 8LH, Northampton

07539853005 - pereu.maxy@gmail.com

## Professional Profile

A dedicated and responsible IT specialist having practical knowledge in both software and hardware development. Experienced in troubleshooting, problems solving, and providing effective solutions in a wide range of IT systems. Demonstrated experience of employment in high paced atmosphere and much emphasis on teamwork, time keeping as well as being open to meet new challenges. An avid opportunity seeker, eager to grow in the field of IT support and system maintenance, particularly within logistics technology environments.

## Experience & Skills

- IT Systems and support: Good knowledge of computer and software as well as hardware, installation, hardware maintenance as well as screen troubleshooting.
- Software Development: Knowledge of HTML, CSS, JavaScript and C#, database managers and web/game creation.
- Problem Solving: Has the capacity to solve technical problems within a short time and comes back with effective solutions.
- Teamwork: Ability to work with cross functional teams; accommodative during the on-boarding process of new staff.
- Time Management: Very structured, can always meet deadlines and can work under a structure-based work pattern.
- Technical Skills: An experienced user of Microsoft office suite (word, excel, power point, teams), Adobe Suite, and unity game engine.

## Education

2024 - 2025	Elizabeth School of London – Newcastle College ( <a href="#">Northampton</a> ) Higher Education IT Computing Level 5.

- Packing items and sending them to customers.
- Scanning items and making sure they are in the right place.
- First experience of work.

## Activities & Interests

As I have free time I prefer working with my team on our projects as a Game Developer and receiving more experience for the future portfolio and future goals. Utilising programming languages and game development frameworks like Unity to bring creative concepts to life.

However, I value a balanced lifestyle and prioritise outdoor activities to unwind, and regularly organise myself and participate in outdoor adventures. This is also for the importance of mental and physical well being by integrating with people and social activities into the routine.
